PFAS Contamination Lawsuit

A Guide

WE'RE OPEN 24/7 | 800.555.6666 | [FORTHEPEOPLE.COM](https://www.forthethepeople.com)

PFAS Lawsuit

Widely used in industrial processing and manufacturing, PFAS chemicals are a class of compounds known as “forever chemicals.” Due to the strength and durability of the chemical bonds in PFAS chemicals, a leak of these chemicals into water or soil would last a very long time.

PFAS chemicals are highly dangerous to humans, and there is widespread evidence of serious leaks and contamination in many areas across the country — areas in which many people live and work. It is now apparent that many of the factories and plants that used PFAS chemicals did not fully prevent leaks of these chemicals, and the subsequent contamination of the water and soil around them.

Exposure to PFAS has been linked to various forms of cancer, liver damage, thyroid damage, decreased fertility, high cholesterol, and many other conditions. And, the cost to clean up a PFAS-contaminated area is extremely high.

Morgan & Morgan attorneys are investigating claims on behalf of people who may have been harmed by PFAS contamination – whether by direct exposure and the subsequent health damage, or by environmental contamination of their community or personal property. If you believe that you or a loved one is suffering from such damage, our legal team is ready to review your case for free, 24/7.

Decades Of Use, Decades Of Leaks

PFAS chemicals are highly valued for their unique ability to repel oil and water, and are essential to the manufacturer of items like non-stick pans and firefighting foam. But this ubiquity combined with the sometimes lax environmental regulation enforcement of the plants and factories that use them means that these chemicals have been leaking and contaminating for decades.

Sometimes these leaks happen all at once, like when great quantities of firefighting foam spilled [at a Connecticut airport](#), leading to the contamination of rivers and wells. And sometimes it happens over decades, like the alleged leaks by more than a [dozen manufacturers in Michigan](#), including DuPont and 3M.

However it happens, the uniquely durable nature of PFAS chemicals allows them to stay and accumulate in the water or ground they contaminate rather than fade away. In an attempt to address this, government regulators [have passed new laws](#) covering the use of PFAS chemicals, and have banned certain chemicals in the PFAS group entirely.

Lawsuits In Progress

Since 2010, legal action against alleged PFAS leakers has steadily built up steam. Major lawsuits include:

- The State of Minnesota sued 3M for alleged PFAS leaks in the Twin Cities area. They settled for \$850 million in 2018.
- Alabama water authorities sued 3M and Daikin America, Inc. and settled for \$4 million.
- Thousands of West Virginia residents sued DuPont and The Chemours Company over hundreds upon hundreds of serious health conditions that were linked to PFAS contamination. The suit was settled for \$921 million.
- New York and North Carolina state governments and authorities are currently pursuing legal action against companies that use PFAS chemicals.

Ready To Fight For You And Your Community

PFAS contamination is a serious problem that carries serious potential consequences, both for the personal health of those exposed and for the environmental health of the areas suffering contamination. All of this harm is a direct result of the negligence of the owners and operators of the plants and factories that used these chemicals and failed to prevent their leakage. They need to be held accountable, and those who suffered harm need to be compensated.

If you, a loved one, or your neighborhood suffered health or environmental harm from PFAS leaks, we want to fight for the justice and compensation you deserve. The consultation is free, and you never pay anything up front, or anything at all unless we win for you.

“

*Our attorneys have recovered more than
\$7 billion for our clients to date.*

FAQ

How long can PFAS chemicals survive in the ground?

Between two and 10 years. This means that the chemicals have a long time to concentrate to dangerous levels and contaminate the water, air, and plant-life (including fruits and vegetables that we eat or that feed the livestock we eat) around them.

Do I need to be sick to file a claim?

No. We are pursuing a wide array of cases against PFAS contaminators, including environmental claims. So even if you or a loved one isn't suffering from a PFAS-related illness, you can still pursue a claim for environmental contamination of your neighborhood or personal property.

How do I know if my area has been contaminated?

Using your favorite web browser or search engine, search "PFAS contamination" and the name of your city. If there's any media mention of PFAS contamination, give us a call so we can investigate further.

How do I know if my illness is linked to PFAS?

If you or a loved one is suffering from cancer, liver damage, thyroid damage, decreased fertility, or high cholesterol, and your area is known to be contaminated with PFAS, your illness might be linked. Give us a call so we can help clarify further.

I don't think I can afford to hire a lawyer. What should I do?

With Morgan & Morgan, there's no such thing as a person who can't afford to hire a lawyer. Our firm operates on the contingency-fee model, which means we only get paid if we win for you. No upfront fee, no being charged for any kind of costs or fees during the case. So no matter your financial situation, you can always afford top quality legal representation.

Who We Are

“

We aim to give more people a chance at justice.

John Morgan founded Morgan & Morgan in 1988. The firm's first office was located in Orlando, Florida, and was made up of three attorneys, two paralegals, and a receptionist. Over the past 30 years, we've been fortunate enough to hire more than 500 attorneys and open 50 offices across the country, empowering us to reach and help even more people. We have a support staff of about 3,000 employees. These paralegals, case managers, case evaluation specialists, receptionists, and more make sure that our clients are taken care of every step of the way.

Our attorneys are dedicated to fighting for the best possible outcome for those who trust us with their cases. With that goal, we've won over \$7 billion for our clients. These wins represent so much more than just a dollar amount, though. They represent the wellbeing of our clients, which is something we take deep pride in protecting.

What People Say About Us

I was able to contact Morgan & Morgan via their online form from the emergency room on the day of my accident. Someone called me the next morning and set up rehab and therapy appointments right away. The following day they came to my home to begin my case. They are swift, professional and customer service-focused. After my accident, I was nervous about driving. I was very grateful that they were so accommodating.

- Z.A., ATLANTA, GA

I couldn't be happier with the service and the professionalism of your staff I was very satisfied with the outcome of my case. The team always returned my telephone calls in a timely manner and shared valuable as well as valid information. They were very professional and maintained a positive attitude. I would definitely use your services again if I was faced with a situation that required an attorney or legal advice and I would also refer your agency to others. Although my situation was unfortunate, I was glad to have your team on my side to get me through the difficult times. Again, I say

THANK YOU.

- KATHY, MEMPHIS, TN

They are the most caring and personal attorneys you could ever have on your side. They genuinely make you feel like helping you in every way they can is their goal and main priority. I'd highly recommend this firm to anyone in need. They treat you as if you were a part of their family and are always seeking the best for the client.

- JANET, LOUISVILLE, KY

“

Although my situation was unfortunate, I was glad to have your team on my side to get me through the difficult times. Again, I say thank you.

I emailed my questions and concerns and had doubt that anyone would contact me in the next 24 hours. I emailed them around 8:30 pm. I received a call the very next morning and the representative explained that after I answered her questions she would turn it over to a lawyer and then they would contact me. She answered all my questions and concerns. She gave me hope that I did the right thing. She said I should hear something in the next few days after a lawyer has time to review. I will not have to pay anything unless they win a settlement. I will receive all the information soon as to what will happen next. It has been less than 24 hours and everything is set in motion.

- TAMMY, ORLANDO, FL

I would just like to say that, regardless of my injuries and all that I am currently going through daily, my attorney was absolutely wonderful to me as far as listening to my concerns and thoughts and always asking if I needed anything. He made sure that he let me know that I could call him at any time for whatever I wanted to discuss regarding my case! He is a true God send and I simply love his attitude and the attention he gives to clients. From day one, this firm has gone above and beyond the call of duty making certain that I was reached out to in a very timely manner. You all ran circles and holes around the first firm! I would recommend you to family, friends, and complete strangers!

- ALICIA, JACKSON, MS

Unbelievably organized, responsive, and probably the most effective process-oriented group of people I've ever seen. Their preparation for mediation and trial is beyond comprehensive. Across two cases and three years, not once did anything fall between the cracks. Everyone I came into contact with exemplifies professionalism; they quickly resolved insurance issues and spent time educating me about everything affecting my cases. I trust Morgan & Morgan and I am grateful for everything they did for me. I recommend them without reservation and will miss working with them now that my civil suit is settled.

- JERRI, JACKSONVILLE, FL

In the News

At Morgan & Morgan, everything we do — from the cases we take on to our wins in the courtroom — makes an impact. That's why in 2019, our legal actions, settlements, and verdicts were covered by premier national and international media outlets like The New York Times, The Washington Post, The Guardian, and CNN, as well as local media outlets.

Here are some of our cases that made headlines in 2019.

Restoring Basketball Glory

In 2018, the NCAA imposed a penalty on the men's basketball team at the University of Louisville (Kentucky) for alleged rules violations. They had their 2013 NCAA tournament win, 2012 Final Four appearance, and individual player statistics vacated and removed from the record.

With the help of John Morgan, our firm's founder, the team's players sued the NCAA and last year reached a confidential settlement. The players had all their statistical achievements and personal honors restored.

Coverage appeared on ESPN, Fox Sports, and in the Associated Press, among others.

Morgan & Morgan Attorney Named Cybersecurity MVP

Morgan & Morgan's John Yanchunis was named a 2019 MVP by Law360 — the premier national legal news service — in recognition of his work protecting the rights of consumers harmed by data breaches.

Last year, John achieved a notable victory when he and his team reached a \$117 million settlement with web giant Yahoo after a data breach compromised billions of user accounts.

Major Settlement in MA Gas Explosions Case

In September 2018, a series of explosions ripped through the Merrimack Valley, Massachusetts, towns of Lawrence, Andover, and North Andover. These explosions were caused by excess gas pressure in poorly built, poorly installed, and poorly maintained natural gas lines owned and operated by Columbia Gas of Massachusetts.

More than 40 homes experienced explosions and fires as a result, which caused severe damage and injury, including one death. Morgan & Morgan's Frank Petosa took the lead in the lawsuit representing the victims, and in July 2019, a \$143 million settlement was reached.

Coverage appeared in The Washington Post and The Boston Globe, and was provided by the Associated Press.

Florida Powerhouse

Although we're a nationwide firm, Florida is still Morgan & Morgan's home base. This year, the firm was recognized for its achievements in the Sunshine State as a Law360 "Florida Powerhouse."

With over 350 attorneys in the state and more than two dozen offices, Morgan & Morgan has made an indelible name for itself there through litigation and impact.

Fighting for a Zipline Accident Victim

A 10-year-old boy from Lakeland, Florida, was seriously injured when his zipline harness disconnected and he fell 20 feet to the concrete below. On behalf of his family, Morgan & Morgan is pursuing legal action against the operators of the zipline facility, alleging employee error due to improper training and safety procedures.

Coverage appeared on the ABC, FOX, NBC, and CNN news channels, among others.
